MOBI-CLAW911 EMERGENCY SERVICES MANAGEMENT

Tactical deployment of resources to:

- Any Medical or Criminal Emergency
 - Anywhere in South Africa

THE MOBI-CLAW911 Team

MIKE MYERS
CEO

Mike is an ex-policeman having worked at Sandton Police Station in the 80's on the Housebreaking Unit and his last year with security branch. He was also chairman of the Westville CPF. He worked on the MOBI-CLAW911 project for over four years before launching. His mission is to make MOBI-CLAW911 the top crime fighting tool in South Africa.

PAUL STONE
COO

Paul is ex-military having served with 61 Batalion mechanised infantry. He was instrumental in the massive growth of Neighbourhood Groups Watch in Westville, KwaZulu-Natal, resulting in a dramatic reduction of crime in the area. He assisted with the launch of MOBI-CLAW911 and heads up the operations side of the business.

Teresa Davie
Sales

Teresa has been in the emergency response business for over twelve years. Her experience ranges from administration and sales, to Duty Manager performing EMS co-ordination. Known for her patience and excellent people skills, Teresa heads up MOBI-CLAW911 sales throughout South Africa.

MARK OGILVIE
INCIDENT MANAGER

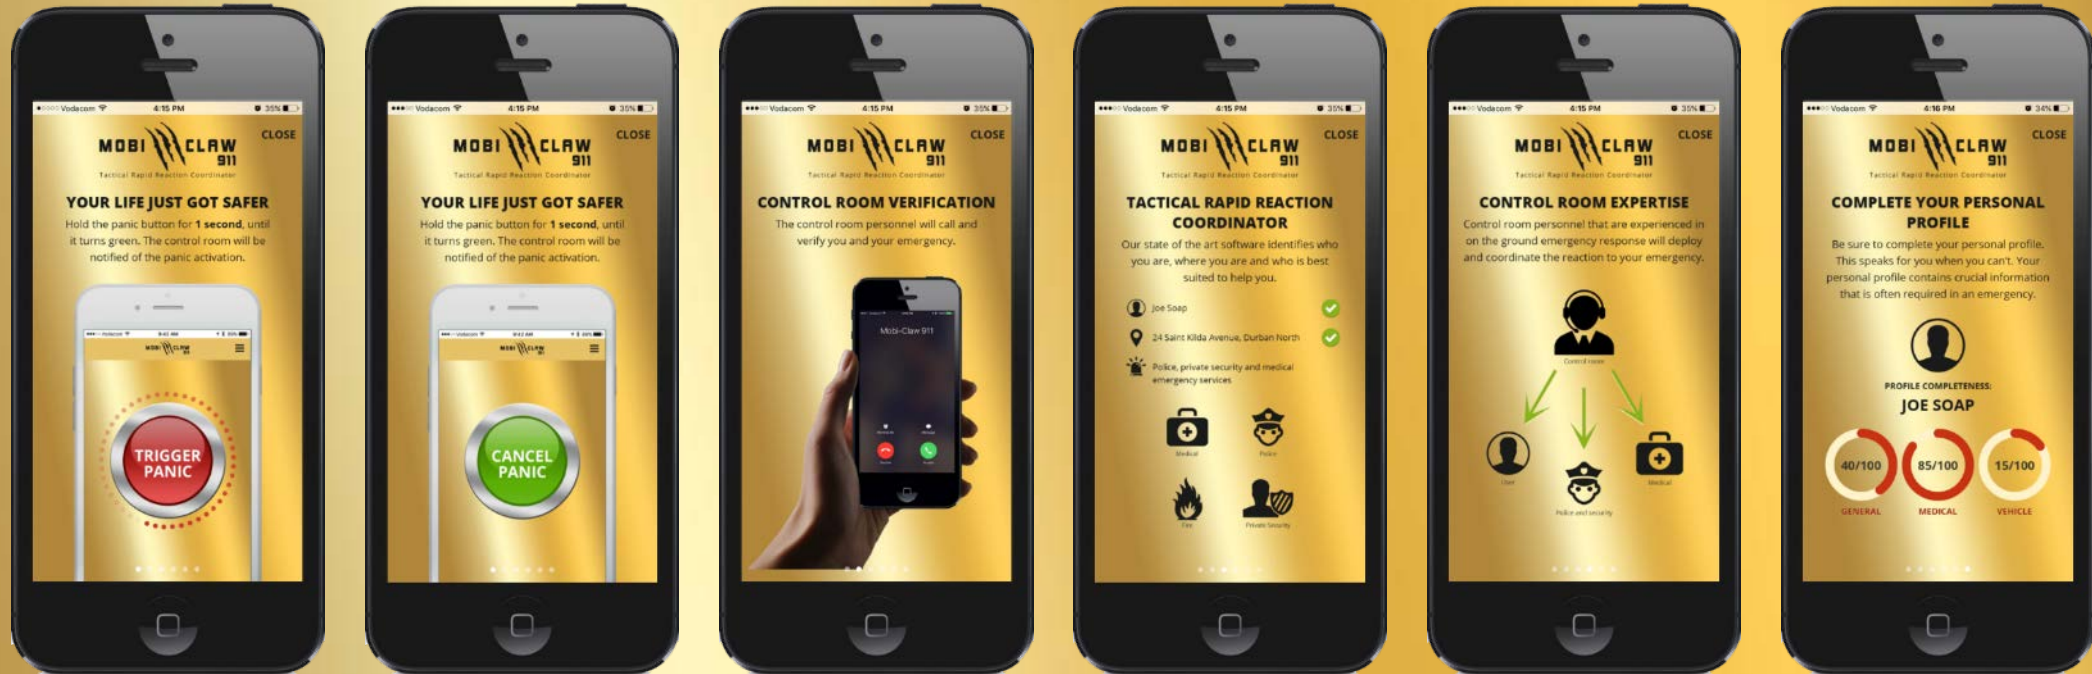

Mark is one of two key management in our Control Room and is an ex-colonel with SAPS with 37 years policing experience. He headed up a specialized SAPS Command Centre responsible for Special Forensics and Case Profiling and has experience in Incident Management and Telephone Support.

ADRIAAN BEKKER
INCIDENT MANAGER

Adriaan is the second of our key Control Room management team and has experience in Major Incident Management. He is a specialist in co-ordinating emergency operations and identifying what on-scene support is required. Adriaan plays an integral part in calming victims and assessing each incident to its fullest.

MOST ADVANCED TWO PART TECHNOLOGY
***SMARTPHONE APP *INCIDENT MANAGEMENT SYSTEM**

MOBI-CLAW911 USPS (UNIQUE SELLING POINTS)

- Own our smartphone technology, no generic white labelled limiting software
- Interphases into leading international Incident Management System software including intricate Geo Fencing
 - Experienced control room operators and management
 - Strict protocols and standard operating procedures
- Large asset network of national on the ground emergency resources
- Comprehensive In App personal emergency profile management
 - ER24 partnership
 - National VISEC LPR partnership
 - National coverage
- Owned and operated by ex-policeman and ex-military operative
 - Proven track record

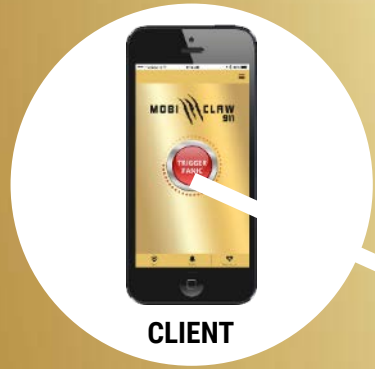

INNOVATIVE

- Constantly improving current technology
- Continually investigating new technology
- Ever expanding on the ground emergency networks
- Investing in the right people and partners
- Cutting edge innovation in the search of perfection

STANDARD EMERGENCY WORK FLOW

- 1. Receives alert
- 2. Verifies
- 3. Distributes alert via digital communication
- 4. Reports to all official channels and records reference numbers
- 5. Acts as central communication point for all responders
- 6. Closes incident when scene is safe and no further threat exists

CPF CUSTOM EMERGENCY WORK FLOW

MC911 PREMIUM AMBULANCE PLAN INCLUDED

Covers members for:

- Emergency Response and Stabilization
 - Ambulance Transportation
 - 24 Hour Medical Information Line
 - 24 Hour Medical Hotline
- 24 Hour Telephonic Trauma Counselling

Our Premium Ambulance Plan is partnered with

ER24 and their accredited affiliates.

Besides this being a lifesaving plan for those without medical aid, we see how this saves lives daily even for those on medical aid, why?

- No authorisation required from medical aid company prior to dispatch
 - Not limited to medical aid specified ambulance service
- We are in direct contact with ER24 call centre and ER24 mobile operations management

LIFESAVING COMMUNITY CRIME FIGHTING AND EMERGENCY TOOL

- Verifies alerts
- Distributes verified alerts to responders specific to the geo fences managing the area where complainant is located. The SAPS/CPF Operations Command Centre would have its own mapped geo fence in addition to MOBI-CLAW911's standard geo fences
- Notifies all official channels and obtains necessary incident and reference numbers
- Communicates details and updates of alert from witnesses and members on scene
- Only closes the incident once the scene is deemed safe and no further threat exists

REGISTRATION PACK

- A3 Street Sign
- Personal Emergency ICE Card
- License Disk Holder
- Fridge Magnet with emergency procedure
- Vehicle Emergency Do Not Tow Stickers

THINKING AHEAD

Product launch to be announced soon

Mobile Panic Device:
We know the challenge of a person being able to use their cellphone in and emergency, so in our quest for perfection when it comes to personal safety we are developing a state of the art panic device.

Features will include:

- Two way communication
- Listening in technology
- Extended battery life
- Managed data and airtime so the client never runs out
- GPS tracking

*** ICASA REGISTERED**

SOCIAL RESPONSIBILITY

Widows and Orphans Fund

MOBI-CLAW911 has for the last three years been a corporate sponsor of the SAPS KZN Widows and Orphans Fund Golf Day and Mike though his previous business concerns has been a corporate sponsor of this event for nine years

At MOBI-CLAW911 we acknowledge the exceptional work that SAPS do and whose members play a huge role in our results.

The biggest sacrifice that a SAPS member can make is lose his/her life while performing their duties.

Therefore MOBI-CLAW911 contributes a portion of each members' subscription to the SAPS Widows and Orphans Fund
